14 February 2022

Dear Resident, Owner or Occupier,

Changes to site design and operation of Sevington Inland Border Facility – Information booklet

Further to my letter of 11 February 2022 regarding plans for proposed changes to the Sevington Inland Border Facility, I am writing to inform you that the community engagement period has now commenced and will run until Monday, 28 February 2022.

During this period, we will be seeking your views on the separate submission required to meet new operational requirements for the site and enhance biodiversity on the land to the east of Highfield Lane, adjacent to the Inland Border Facility.

Please find enclosed an information booklet which sets out the purpose of the proposed changes and updated information on construction and operation of the inland border facility. Feedback received during the community engagement period will help inform the proposed changes and we would therefore welcome your views. You can provide comments by completing the enclosed feedback form and mailing to: Freepost Inland Border Facilities. You can also provide comments about the proposed changes online. Please visit our website at www.inlandborderfacilities.uk

Comments received during the community engagement period will be included within our proposed submission documents. Feedback can be provided from today until Monday, 28 February. The website will continue to be updated to provide you with information about progress at the Sevington Inland Border Facility.

Yours sincerely,

TRUDY HARRISON
PARLIAMENTARY UNDER SECRETARY OF STATE FOR TRANSPORT
